New York City—Central Office Designations

Use of Distinguishing Numerals

All telephone central offices in New York City are designated by *a name and a numeral:* for example, SU nset 6. In many cases there exist one or more other central offices with the same name but a different numeral. Thus, there is a MA in 2 and also a MA in 4. As additional central offices are introduced from time to time, they are given the same name as an existing central office in the same section of the city, but with a different numeral.

It is therefore necessary that both **the office name** and **the office numeral** be used in making a call to any telephone in New York City, in order that the call may be properly routed to the desired central office.

How Calls Should Be Made

Calls from dial telephones should be made by dialing the first two letters of the office name (which appear capitalized in the listings), the central office numeral and the line number. For example, if a number appears as PR ospect 9-5070, it should be dialed P-R-9—5-0-7-0.

In calling by voice, the number should be given thus: Prospect nine—five-oh-seven-oh.

To Transact Business By Telephone With the Company

To make it more convenient for you to transact business with the company, your telephone account is assigned to a particular representative in the Business Office whose responsibility it is to handle all matters relating to your telephone service such as changes in location, information regarding bills, directories, etc.

To reach your representative ask the operator for the "Business Office" or Dial 811. When the Business Office operator answers give her your telephone number and ask for the representative handling your account, as for example: "This is Prospect 9-5070. Please let me have my representative."

If you are not calling from a telephone within your own district, ask the operator for the Business Office telephone number associated with your central office as listed below.

If, after any matter has been taken up through the usual channels as indicated on page 1, an unsatisfactory condition continues, please call or dial the operator, give her the telephone number for your central office, as listed below and ask for the manager.

These offices are open from 9:00 A. M. to 5:00 P. M. except Saturday when they close at noon. During nights, Sundays and holidays, requests for the immediate restoration of service, or for other similar matters, because of emergent conditions, may be made by calling or dialing EX change 6-5100, and asking for the manager.

HOW TO USE THE DIAL TELEPHONE

Listening for Dial Tone

On all calls, remove the receiver from the hook and listen for dial tone before starting to dial. Dial tone is a steady humming sound in the receiver indicating that the line is ready for you to dial.

Calls to Central Offices Which You Should Dial Direct

(Central offices which you should dial direct may be determined by consulting the tables on Pages 9 and 10.)

When you hear dial tone keep the receiver off the hook and dial the first two letters of the central office name, then the office numeral, and then each figure of the line number. For example, if dialing PRospect 9-5070:

(1) Place your finger in the opening in the dial for the letter P.

(2) Pull the dial around until you strike the finger stop.

(3) Remove your finger from the opening, and without touching the dial, allow it to return to its normal position.

(4) Proceed in the same way to dial the letter R and the figures 9—5-0 (in red) 7 and 0 (in red).

If the number called has a party line letter, dial the number in the same way, followed by the letter at the end of the number.

If you make a mistake while dialing, hang up the receiver at once, wait a few seconds, and make another attempt.

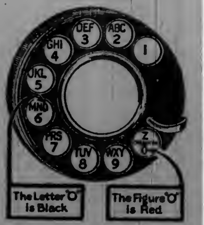
Before starting to dial a second call, always hang up your receiver for a few seconds.

Signals for Which to Listen

Within a few seconds after you have completed dialing, you should hear either the ringing signal, an intermittent burr-ring sound, or the busy signal, a rapid buzz-buzz-buzz.

If you hear an interrupted buzzing sound, as buzz-buzz—buzz-buzz, it indicates that you have dialed the central office designation incorrectly. Hang up the receiver, wait a few seconds, and make another attempt, being careful to dial the central office designation correctly.

If you do not hear any signal within half a minute, hang up the receiver, wait a few seconds and make another attempt.



Uncompleted Calls

When, for any reason, you do not obtain a connection (for example, the called line is busy or does not answer), you will get quicker service if you hang up the receiver and try the call again yourself at intervals instead of immediately calling the operator for assistance. No charge is made unless you obtain an answer from a subscriber's telephone.

Obtaining Assistance from the Operator

If you have trouble in dialing, or if you have occasion to report cases of service irregularities, you can reach the operator by placing your finger in the opening in the dial for the word "OPERATOR," pulling the dial around until you strike the finger stop, and then removing your finger from the opening, allowing the dial to return to its normal position.

After connection has been established with the operator, you may recall her by moving your receiver hook up and down slowly. This can be done only when you are connected with the operator; on other calls, moving the receiver hook will break the connection.

Calls from a Party Line or from a Line With an Extension Telephone

Always make sure that the line is not in use. If you do not hear the dial tone, inquire if the line is being held by some other person. If no response is received, hang up the receiver for a few seconds and make another attempt.

Listen on the line while dialing, and if you hear another party come in on the line or hear successive clicks in the receiver, it indicates that someone else on your line is trying to call. Inform him that the line is in use and request him to hang up his receiver. When he does so, hang up your own receiver, for a few seconds, and then remove it and dial the complete number again.

To call another party on your line, dial the operator, give her the number you wish to call, state that it is the number of another party on your line, and give her your number.

To call an extension telephone on your line, dial the operator, give her your number and ask her to ring the extension telephone.

Calls to Central Offices Which You Cannot Dial Direct

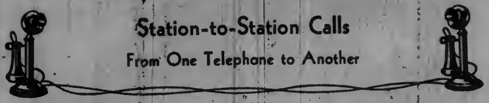
To place calls by number to central offices within New York City which you cannot dial direct, dial the operator and give her the number.

Directions for placing out-of-town calls are given on Page 5.

Dial Coin Telephones

The operation of dial coin telephones is quite similar to that described above. The main difference is that it is necessary to deposit a coin in order to obtain dial tone (indicating that the line is ready for you to dial). Your coin will be returned after you hang up the receiver, unless you obtain an answer from a subscriber's telephone.

OUT-OF-TOWN CALLS



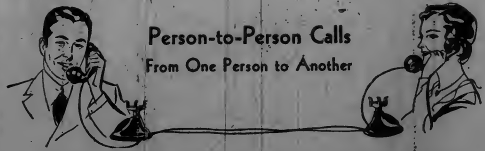
Station-to-Station Calls

From One Telephone to Another

CALL OR DIAL THE OPERATOR AND GIVE HER THE NAME OF THE CITY AND THE TELEPHONE NUMBER YOU WANT TO REACH.

If you do not know the number, call Information (or dial 411).

Station-to-Station calls are calls on which you do not ask the operator for any particular person or particular private branch exchange extension station. They are handled more rapidly and at lower rates than person-to-person calls. Reduced rates are generally in effect during the evening and night periods. Charge is made if anyone at the called station answers.



Person-to-Person Calls

From One Person to Another

CALL LONG DISTANCE (OR DIAL 211) AND GIVE THE DETAILS OF THE CALL.

Faster service will be obtained if you give the telephone number. Make a note of telephone numbers for future reference.

Person-to-person calls are calls on which you ask the operator to call a particular person to the telephone or to reach a particular private branch exchange extension station. The rates are somewhat higher than station-to-station rates, but no charge other than a report charge is made, unless the desired person or extension station is reached. There is no reduction during evening and night periods.

Ship-to-Shore Telephone Service

Telephone service is now available to the steamships Belgenland, Empress of Britain, Homeric, Leviathan, Majestic, Monarch of Bermuda and Olympic while at sea and within calling range. Calls may be placed or information obtained by calling Long Distance or dialing 211.

Collect Calls (Charges Reversed)

Upon request of the calling party and with the consent of the called party, the charges on any out-of-town call may be collected at the called station. No additional charge is made for this service, except that a somewhat higher rate applies on station-to-station calls where the rate is 20c or less.

A report charge will apply if the call is not completed because the called party refuses to accept the charges.

The reversal of charges is not permitted on calls to points in Mexico, South America, and on Transoceanic and Ship-to-Shore Service.

International Telephone Service

Telephone service is available from your telephone to practically all important cities of Europe, to many important cities of Australia, Mexico, and South America, and to all points in Bermuda, Canada and Cuba. For rates to certain transoceanic points, see Page 7. Calls may be placed or other information obtained by calling Long Distance or dialing 211.

HOW TO DETERMINE THE CHARGE FOR CALLS BETWEEN POINTS WITHIN NEW YORK CITY

If you are calling from the Bronx, Manhattan, Queens or Richmond (Staten Island), consult the Directory for that Borough.

1st Find out in what zones the telephone from which you are calling and the telephone which you desire to call are located by consulting Table C on page 10.

2nd Determine the charge which will apply by consulting the tables below, Table A for message rate subscribers and Table B for flat rate subscribers and coin telephone users.

NOTE—Subscribers calling from dial flat rate telephones should dial direct those calls within their local calling area. If the call is from a dial coin telephone or a dial message rate telephone, the number should be dialed if the charge is 5c or one local message, respectively.

TABLE A—Message Rate Telephones

CALLS FROM ZONE	TO ZONE	ARE CHARGED AS
6	1, 2, 3, 4, 6, 7, 8, 9, 10, 11, 12, 13	1 local message
	5, 14, 15	2 local messages
7	1, 6, 7, 8, 10, 12, 13	1 local message
	2, 3, 4, 9, 11, 14, 15	2 local messages
	5	3 local messages
8	1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12	1 local message
	13, 14	2 local messages
	15	3 local messages
10	1, 2, 6, 7, 8, 9, 10, 11, 12, 13	1 local message
	3, 4, 6	2 local messages
	14, 15	3 local messages

All charges shown above are for the initial five minutes of conversation. The charges for conversations of greater length are as follows:

INITIAL PERIOD CHARGE	OVERTIME CHARGE
2 local messages	1 local message for each additional 3 minutes or fraction thereof.
3 local messages	1 local message for each additional 2 minutes or fraction thereof.

DIRECTORIES

We earnestly desire to have telephone number information available for your use in the form most satisfactory from your viewpoint but we wish to avoid furnishing more telephone directories than are needed, as this not only results in inconvenience to our customers but is wasteful as well. We aim to accomplish this through the provision of attractive booklets for listing telephone numbers, through the distribution of borough telephone directories, and by means of Information service.

The maximum of convenience is secured through the maintenance of up-to-date personal lists of telephone numbers which you have occasion to call. Under this plan, the lists can be kept immediately at hand and the majority of desired telephone numbers can be ascertained with the least difficulty.

In order to meet your requirements, we shall be glad to furnish you with attractive booklets for use in preparing personal lists of telephone numbers or with any borough directory you may require upon application to any of our Business Offices listed on page 3.

How to Use the Directory

Arrangement of Listings

A telephone directory listing is alphabetized in accordance with the sequence of the letters in each part of the listing, considering each word with the next word as to every letter it contains. The parts of the listings are considered in the following order:

1. Surname (or proper name)
2. First given name or initial (or equivalent of either)
3. Second given name or initial (and other given name, if any)
4. Title (if any)
5. Designation (if any)
6. Street name (or equivalent)
7. Building number

Abbreviations

Such abbreviations as Chas., Co., Geo., Jas., St. (Saint), Wm., etc., are placed in the same alphabetical sequence as though spelled out in full.

Apostrophe, Hyphen and Ampersand

Apostrophes, Hyphens and Ampersands (&) are disregarded in alphabetizing, and names containing these symbols are listed as though the symbols were not shown.

Names With Prefixes

Names beginning with "M," "Mac," or "Mc," or with prefixes, such as D', De, Fitz, L', O', St. (Saint), etc., are treated as one word without regard to capitalization or apostrophe.

Single Letters Used as Names

Single letters used as names are treated as words and appear in the directory at the beginning of letters.

Same Names Spelled as Two or More Words

Names which are known to be locally spelled as both one or more words are treated as one word in determining the precedence of listings. In such cases a cross reference is placed where the listings would appear if treated as two words.

Classified Telephone Directory

The Classified Telephone Directory contains the name of every business subscriber listed under a classified heading which is descriptive of his business. This directory serves as a buyer's guide and also as a telephone number finding list.

If you wish to purchase an article or service, look for the heading descriptive of the article or service you have in mind and select the firm you want to deal with from the associated listings and advertisements. If you are looking for the telephone number of a person or firm and you know the profession or business, you can find it easily in the Classified Telephone Directory, under the heading descriptive of the profession or business.

GENERAL INFORMATION

Telegrams by Telephone

You may telephone telegrams, cablegrams or radiograms to the Postal Telegraph-Cable Company or the Western Union Telegraph Company. The telegraph charges will appear on your monthly telephone bill.

You may also telephone your telegrams from public and semi-public coin box telephones and deposit the charges for such messages in the coin box.

When calling either of these telegraph companies follow the instructions shown under its listing in this directory.

Overtime Charges

Although it is not the Company's general practice to time all calls from message rate telephones on which the initial period charge is one local message, overtime charges will be applied wherever such calls are found materially to exceed five minutes in duration.

Time-of-Day Information

To obtain the correct time Call or Dial MEridian 7-1212. This information is available at any time of the day or night and is provided as an accommodation at a small charge as follows:

One local message will be charged message rate subscribers.

Five cents will be charged flat rate subscribers and coin box and public telephone users.

Free Calls

Calls from any telephone in New York City may be made to any department of the Telephone Company in the City and Suburban Area without charge, excepting calls to the Time-of-Day Information Department, MEridian 7-1212.

On all free calls made from coin box stations, the coin deposited in order to call the operator will be returned.

Teletypewriter Service

Typing by wire is offered for any number of minutes and to any city in the United States. Subscribers to this service can typewrite by wire instantly to each other at any time. The service provides two-way communication with a speed of connection comparable to telephone service. One or more copies may be produced simultaneously by both sending and receiving machines and the material may be recorded on forms if desired. Teletypewriters can be operated by anyone who can operate a typewriter. For further information, ask the operator for "Business Office" or dial 811.

Exhibiting Telephone Numbers

If you display your telephone number on stationery, vehicles, or in other ways, it is important that it be kept currently correct. Changes may become necessary from time to time, and failure to make corrections may affect your service as well as the service of those who desire to call you.

Errors in Directories

Every effort is made to make the directory as accurate as possible. Sometimes despite the care and attention given it, errors will creep in. Please check your listing and if it is incorrect, call the Business Office promptly.

The Company assumes no liability for damages arising from errors or omissions in the making up or printing of its directories, except in the case of charge listings in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues.

Identification of Employees

Every employee of the Telephone Company authorized to inspect, repair or remove the Company's apparatus carries a metal badge showing the Company's name and his own number. Subscribers are earnestly requested to refuse access to their premises to anyone who cannot in this way identify himself.

Attachments

The Company's tariff provides that no apparatus or appliance not furnished by the Company shall be attached to or used in connection with its facilities. Telephone instruments are designed to produce the best results. Many of the unauthorized devices offered for sale, which are claimed to improve the service, get the telephone lines and instruments out of order and to protect its service, the Company will be compelled to remove any such device. Where ordinary apparatus does not adequately meet a particular set of conditions, special equipment will be furnished by the Company at reasonable rates.

Telephone directories containing the listings of subscribers within a specified area issued from time to time by the Company are and remain the property of the Company. They shall not be mutilated and shall be surrendered to the carrier who delivers the subsequent issue.

No foreign or privately owned binder, holder or auxiliary cover bearing advertisements shall be used in connection with any telephone directory furnished by the Company.

Injuring Telephone Property

A person who wilfully or maliciously displaces, removes, injures, or destroys; a line of telegraph or telephone, wire or cable, pier or abutment, or the material or property belonging thereto, without lawful authority, or who shall unlawfully and wilfully cut, break, tap, or make connection with any telegraph or telephone line, wire, cable or instrument, or read or copy in any unauthorized manner any message, communication or report passing over it, in this state; or who shall wilfully prevent, obstruct or delay, by any means or contrivance whatsoever the sending, transmission, conveyance or delivery, in this state of any authorized message, communication or report by or through any telegraph or telephone line, wire or cable, under the control of any telegraph or telephone company doing business in this state; or who shall aid, agree with, employ or conspire with any person or persons to unlawfully do, or permit or cause to be done, any of the acts hereinbefore mentioned, or who shall occupy, use a line, or shall knowingly permit another to occupy, use a line, a room, table, establishment or apparatus to unlawfully do or cause to be done any of the acts hereinbefore mentioned, * * * is punishable by imprisonment for not more than two years. —Extract from Section 1423 of the Penal Law

Privacy of Telephone Service

A person who wrongfully obtains, or attempts to obtain, any knowledge of a telegraphic or telephonic message by connivance with a clerk, operator, messenger or other employee of a telegraph or telephone company, or being such clerk, operator, messenger or other employee, wilfully divulges to anyone but the persons for whom it was intended, the contents or the nature thereof of a telegraphic or telephonic message or dispatch intrusted to him for the transmission or delivery, or of which contents he may in any manner become possessed, * * * is punishable by a fine of not more than one thousand dollars or by imprisonment for not more than two years, or by both such fine and imprisonment.

Extract from Section 552 of the Penal Law, Chapter 40 of the Consolidated Laws.
